

## Welcome to PHS

Physical Health Screens (PHS) was established to meet the health care requirements of both individuals and businesses. We pride ourselves on providing a tailored, personal and above all else, confidential service to all of our clients. Our founding partners have been in the health care industry for over 20 years working for such companies as BUPA, Norwich Union and Western Provident. The experience gained in this time has allowed us to formulate the unique catalogue of services we offer.

Although PHS are based in the north east of England, we are able to provide a truly national service through our network of fully qualified nurses.

Our Services page details the expansive range of screenings and treatments that we have on offer. As stated above, all of our services are provided by fully qualified and fully trained nursing professionals.

Please contact us for further information.
