

Don't Get Caught Out With Flu

Wednesday, 06 February 2008

Flu is a nasty infection that affects a lot of people in high risk groups. The NHS has a policy in place for providing vaccinations for these people but due to shortages in NHS supplies, it cannot treat the average UK worker.

With flu costing UK business millions each year how can you safe gaurd your employees and ensure business continuity? The good news is PHS have added a mobile flu vaccination service to our extensive health care portfolia.
